PLEDGE

India is my country. All Indians
are my brothers and sisters.

I love my country, and I am proud
of its rich and varied heritage. I shall
always strive to be worthy of it.

I shall give my parents, teachers
and all elders respect, and treat
everyone with courtesy.

To my country and my people,
I pledge my devotion. In their
well-being and prosperity alone lies
my happiness.

Preface

My Dear Friends,

I warmly welcome you to Eleventh Standard. From the Educational academic year (2019-2020), you will experience the newly structured curriculum for the optional subject Education.

Education is the independent subject, in this subject you will be introduced with different branches like Educational Sociology, Educational Psychology, Educational Administration and Educational Research. The subject Education is having its own Philosophy, Psychology. As gradually the study of education progresses you will come to know that every subject is being inculcated in it. It will help to understand the educational process in which you are engaged.

Education is considered as a very advanced, developing and research based educational branch. In human life the educational process and its related learning-teaching-evaluating procedure and research procedure is having extra-ordinary importance.

This is delightful that you are being introduced to Education subject, through this textbook. Through this textbook you will experience new views from every chapter. From the chapter. You will know the meaning of education stated by the Indian and western thinkers. Our education system has a strong philosophical foundation laid by various thinkers and reformers. You will understand their contribution in various fields of education. Education is a sub-system of a society. Society needs to contribute in the progress of education and education should lead society, progressively. Only social reformers' and thinkers' contribution is insufficient for social progress, so each component of society should contribute. You should understand the interdependence of society and education. You need to have insight of education, hence learning about various aspects of education e.g. teaching, learning, administration, management etc. are necessary. Be a part of progressive changes by understanding new trends in education. Know yourself and your surrounding by understanding educational psychology and study habits to gain knowledge and success.

I hope this textbook of subject Education will give inspiration. From your reading and doing given activities and project activities, you should study deeply and thoroughly. The QR code is given on the front page for experiencing the joy of Digital Book.

I wish all the very best to you for your educational progress !!!
