Introduction :

The sole proprietorship has its limitations such as limited capital, limited managerial ability, unlimited liability, no stability, absence of specialization etc. Hence when a business is to be set up on a scale which needs more capital and involves more risk, two or more persons come together to run it. They agree to share the capital, the management, the risk & profits of business, such mutual relationship based on an agreement amongst these persons is termed as "Partnership". The persons who have entered into the partnership are individually known as "Partners" and collectively as a "Firm".

1.1 Meaning and Definition of Partnership :

Partnership is an organization where there is an association of two or more persons coming together to carry on a business with a view to share Profit or Losses of a firm.

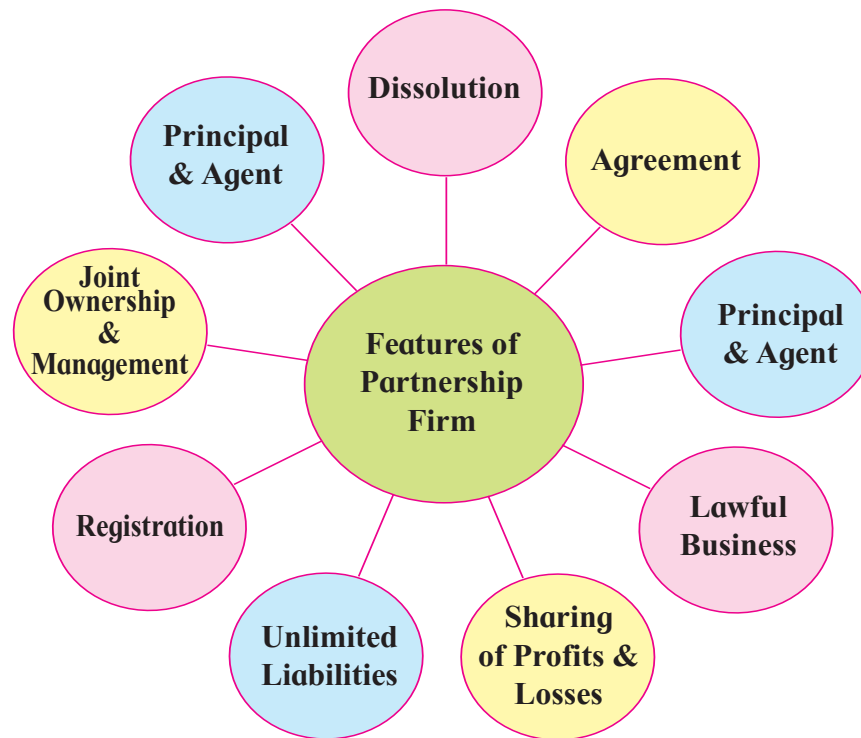

Definition :

Indian Partnership Act 1932 Section 4 defines the partnership as, "It is the relation between persons who have agreed to share the profits of a business carried on by all or anyone of them acting for all."

According to **Prof. Handy**, "Partnership is the relation existing between persons competent to make contract, who agree to carry on a lawful business in common with a view to earn private gain.

Features of Partnership Firm

- 1) **Agreement :-** Partnership is a result of agreement between partners. It could be written or oral. A written agreement is preferred so that it can be used as a proof in the court of law & such written agreement is known as “Partnership Deed.”
- 2) **Number of Partners :-** Minimum two partners are needed to start partnership firm and the maximum number of partners are fifty according to companies Act 2013 (Amended in 2014)
- 3) **Lawful business :-** Business undertaken by partnership should be lawful. It cannot undertake business which is not allowed by state. The definition of Partnership also does not permit any illegal business.
- 4) **Sharing of Profit and losses :-** The purpose of partnership is to earn maximum profits. Partners have to share profits & losses according to the ratio given in the agreement. If the agreement is silent about the ratio then profit and loss sharing will be equal.
- 5) **Unlimited Liability :-** The liability of partners is unlimited joint and several that is, partners are liable till the last rupee in their pocket. If assets of business is not sufficient to pay liabilities, then personal property of partners can be used. If anyone of the partner is declared insolvent then his liability will be borne by the solvent partner.
- 6) **Registrations :-** Registration of partnership firm is compulsory only in the state of Maharashtra with effect from 1st April 2005. According to Indian Partnership Act, 1932, registration of partnership firm is optional it means a firm may or may not be registered. Registration of firm merely certifies its existence and it is a process of entering the name of Partnership Firm in the register of Registrar.
- 7) **Joint Ownership & Management :-** Each partner is joint owner of the property of the firm, so no partner can use property for personal use. All partners have equal rights in managing the firm. So all partners are jointly responsible for the management of firm.
- 8) **Principal and Agent :-** Each partner works in two fold capacities i.e. principal and Agent. A partner acts as a principal of the firm with outsiders and with other partners he acts as an agent.

- 9) **Dissolution :-** A partnership firm can be dissolved through agreement between the partner. If a partner wants to close the firm he can dissolve the firm by giving fourteen days notice. The firm can also be dissolved if a partner dies or retires, becomes insolvent or insane.

PARTNERSHIP DEED

The document containing the partnership agreement among partners is called **Partnership Deed**. It contains the terms and conditions which are agreed upon by all the partners. An agreement may be written or oral but when it's written, it's called a deed.

The Partnership Act doesn't make it compulsory to have a written agreement. However, in case of dispute among the partners, it is always in the best course to have a written agreement duly signed (by all the respective partners) and registered under the Act. Partnership Deed contains the rules and regulation framed for the internal Management of the firm. It is also an Article of Partnership.

Contents of the Partnership Deed

- 1) Name and address of the firm and its main business.
- 2) Name and address of all partners and duration of the partnership.
- 3) Capital contribution of all the partners
- 4) Ratio in which profits (and losses) are to be shared.
- 5) Rights, duties and liabilities of the partners.
- 6) Provisions related to admission, retirement, death etc. of a partner.
- 7) Rate of interest on capital, loan, drawings etc.
- 8) Salaries, commission, etc. if payable to any partners.
- 9) Settlement of accounts on dissolution of the firm.
- 10) Method of settlement of disputes among the partners.
- 11) Any other matter relating to the conduct of business.

Importance of Partnership Deed

Partnership deed is a very important document because it is the written agreement which contains all the terms and conditions of the partnership business. It forms the basis of mutual relationship among the partner. Moreover, partnership deed regulates the rights, duties and liabilities of all the partners as well as of firm. So by having partnership deed partners disputes in future may be avoided.

Deed of Partnership
This deed of partnership is made on [Date, Month, Year] between:
1. [First Partner's Name], [Son/Daughter] of [Mr. Father's Name], residing at [Address Line 1, Address Line 2, City, State, Pin Code] hereinafter referred to as FIRST PARTNER.
2. [Second Partner's Name], [Son/Daughter] of [Mr. Father's Name], residing at [Address Line 1, Address Line 2, City, State, Pin Code] hereinafter referred to as SECOND PARTNER.
3. [Third Partner's Name], [Son/Daughter] of [Mr. Father's Name], residing at [Address Line 1, Address Line 2, City, State, Pin Code] hereinafter referred to as THIRD PARTNER.
4. [Fourth Partner's Name], [Son/Daughter] of [Mr. Father's Name], residing at [Address Line 1, Address Line 2, City, State, Pin Code] hereinafter referred to as FOURTH PARTNER.

Hence it is always in favour, to have a written agreement i.e. partnership deed duly signed by all the partners and registered under the Indian Partnership Act 1932.

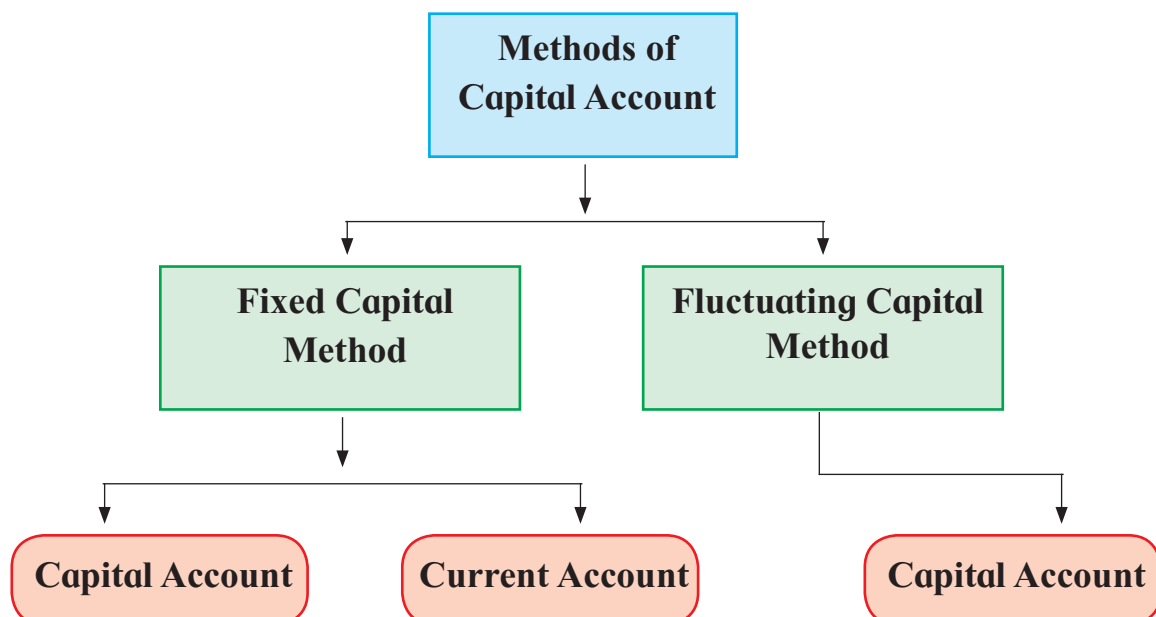

1.2 Provision of the Indian Partnership act 1932:

At the time of formation of partnership firm, a document is prepared called as partnership deed and all terms and conditions are mentioned into the deed, but if the partnership deed is silent about any point then this issue is solved as per the provisions in Partnership Act 1932 section no 12 and 17 are made applicable to determine the following issues.

- 1) **Distribution of profit :** If the partnership deed is silent about the profit sharing ratio, then the profit and losses are distributed among the partners in equal ratio.
- 2) **Interest on drawings :** As per the provision of Indian Partnership Act 1932, if the date of drawing is not given then average of six month's interest is charged on drawings.
- 3) **Interest on partner's loan :** If the partner provides additional amount to the business as loan, but rate of interest on loan is not given then 6% p.a. interest is allowed.
- 4) **Interest on capital :** If the partnership deed is silent about interest on capital then interest is not allowed.
- 5) **Salary or commission to Partners :** As per the provision made in the Indian Partnership Act 1932 no salary, commission, allowance or any remuneration is to be given to any of the partners for any extra work done for the firm, However, if any provision is made in partnership deed, then partners are entitled to get commission or salary as per the agreement.
- 6) **Admission of a new partner :** As per the provisions of the Indian Partnership Act 1932, no outside person can be admitted into the firm as a partner without the consent of other partners.

1.3 Methods of Capital Accounts

Amount in cash or kind brought in by the partner to manage business activities is termed as Capital. Partners maintain and operate some methods of the Capital Accounts. The two methods of Capital Accounts are discussed below.

Fixed Capital Method:

In this method amount of capital of a partner remains the same at the end of that financial year. There is no addition or subtraction from capital during the year. When this method is adopted partner's open a new account in name of partner's Current Account and all the related to capital adjustments are solved through Partner's Current Account. For example, Drawings, Interest on Drawings, Interest on Capital, Partner's Salary, Commission, Brokerage, Share of Profit and Losses are recorded in to Current Account.

Karan : On Opening balance i.e. ₹ 5,00,000 for 1 year

$$12\% \text{ p.a. interest} = ₹ 5,00,000 \times 1 \text{ years} \times \frac{12}{100} = ₹ 60,000$$

Kiran : On Opening balance i.e. ₹ 5,00,000 for 1 year

$$12\% \text{ p.a. interest} = 5,00,000 \times 1 \text{ years} \times \frac{12}{100} = ₹ 60,000$$

Calculation of Interest on Capitals

Sun: 5% on ₹ 10,00,000 for one year will be

$$= \frac{10,00,000 \times 5}{100} = ₹ 50,000$$

5% of ₹ 2,25,000 for 6 months will be

$$= \frac{2,25,000 \times 5 \times 6}{100 \times 12} = ₹ 5,625$$

Total will be 50,000 + 5,625 = 55,625

Moon: 5% on 5,00,000 for one year will be

$$\frac{5,00,000 \times 5}{100} = ₹ 25,000$$

5% of ₹ 1,50,000 for 6 months will be

$$= \frac{1,50,000 \times 5 \times 6}{100 \times 12} = ₹ 3,750$$

Total will be 25,000 + 3,750 = ₹ 28,750

Note :

1. Current Account balance may appear in either side i.e. Debit or Credit side
2. In the absence of any instruction the Capital Account should be prepared by Fluctuating capital methods
3. Interest on loan of partners is treated as liability so it is credited to partners current account. But when there is no current account and partners are maintaining Fluctuating capital method than interest on loan of partner is credited to Partners Capital A/c

Competency Statements -

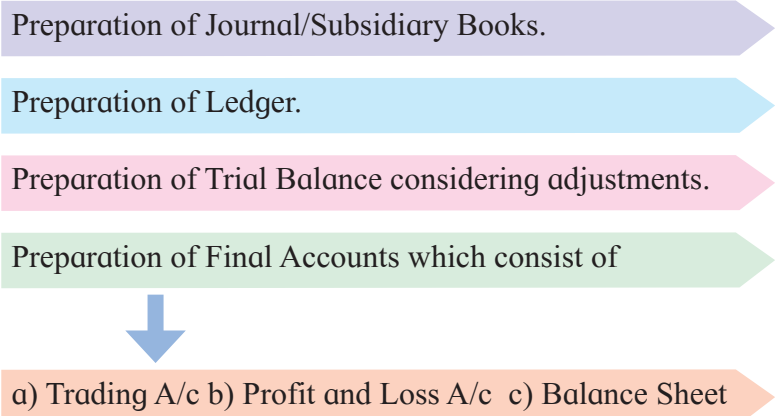

The students will be able to :

- Understand the meaning of Final Accounts.
- Know the need and importance of Final Accounts.
- Know the effects of adjustments in Final Accounts.
- Know the meaning of Trading Account, Profit and Loss Account and Balance Sheet.
- Know how to find out financial results of the business.

2.1 Introduction :

As per the sole proprietary concern we will also prepare the Final Account of partnership firm, the income statement and position statement. Final Account is the last stage of accounting procedure. Generally following steps are followed in the accounting.

Various Steps in Accounting :

As per Income Tax Act, 1961 financial year starts on 1st April and ends on 31st March every year.

Necessity of Preparation of Final Accounts :

Final account is prepared for the following various purposes.

1. To find out the Gross Profit or Gross Loss incurred during the year.
2. To find out the Net Profit or Net Loss of the business.
3. To know the financial position of the business at the end of every year.
4. To find out the amount of debtors and creditors.
5. To prepare various accounts for future planning.
6. To find the sources and application of fund.
7. To find out the value of goodwill for the purpose of reconstruction of firm.
8. To calculate various taxes of firm like income tax, etc.

2.2 Preparation of Partnership Final Accounts:

Trial Balance and adjustments are important in preparation of Final Account. The list of debit and credit balances of all ledger account is called as "Trial Balance". The Final Account is prepared at the end of every financial year.

Trading Account shows the Gross Profit or Gross Loss and Profit and Loss Account shows the Net Profit or Net Loss of the firm. The Balance Sheet shows the financial position of the business in the form of assets and liabilities at the end of year.

Trading Account :

Trading Account is a Nominal Account. Trading Account is opened in the trading organization for the purpose to find out the Gross Profit or Gross Loss incurred during the year. In the debit side of this account all direct expenses are recorded and in the credit side of account all direct incomes of the firm's are recorded. If the trading account's credit side is more than debit side then account shows the Gross Profit and vice versa. The Gross Profit or Loss is transferred to Profit and Loss Account.

J. R. Batliboi :

“The Trading Account indicates the results of buying and selling of goods while preparing this account, the general establishment charges are ignored and only the transactions related to goods are included.”

- When the item Salaries and Wages is given in which Salaries appear first, it should be transferred to Profit and Loss A/c – Debit side.

Profit and Loss Account :

Profit and Loss Account is the type of Nominal Account. Profit and Loss account is a main account of income statement. It is prepared to ascertain the Net Profit earned or Net Loss suffered by a business concern during the accounting year. All indirect expenses are to be recorded to the debit side where as all indirect incomes are to be recorded to the credit side of this account. The credit balance on this account shows Net Profit which is to be transferred to Capital Accounts credit side or added in capital. The debit balance of this account shows, Net Loss which is to be transferred to Capital Account debit side or deducted from Capital.

R.N. Carter, "A Profit and Loss Account is an Account into which all gains and losses are considered in order to ascertain the excess of gain over the losses or vice versa."

Notes :

- 1) Every item in the Trial Balance must be shown only one time and in just one part of the Final Accounts, excluding silent/ hidden adjustments.
- 2) Every adjustment must have two effects in Final Accounts i.e. debit and credit.
- 3) We have already studied this topic in XI standard as “Final Account of Proprietary Concern.” Most of the theory part, explanation of journal entries, and effects of journal entries are similar. To avoid repetition common explanation is not given in the XII standard. But explanation and Journal Entries of new adjustments are given. For common references / explanation teachers and students can refer textbook of standard XI. First topic in this book i.e Introduction to Partnership is also correlated with Partnership Final Account. Students can refer topic no.1.

Important Points :

- 1) Each item from Trial Balance will be included only once in the Final Accounts i.e. either in Trading or in Profit & Loss A/c or in Balance Sheet or in working section.
- 2) Each adjustment has two effects for the similar amount.
- 3) Debit balances of Trial Balance will appear on the debit side of Trading Account or Profit & Loss A/c or on the asset side of the Balance Sheet.
- 4) Credit balances of Trial Balance will appear on the credit side of Trading Account or Profit & Loss A/c or Capital Account or on the Liabilities Side of the Balance Sheet.
- 5) If Salaries and Wages are given as separate items, Wages are shown on the debit side of Trading Account while salaries are shown on the debit side of Profit and Loss A/c. If the item is “Wages and Salaries”, it is shown on the debit side of Trading A/c and if the items is “Salaries & Wages”, it is shown on the debit side of Profit & Loss A/c.
- 6) If the Trial Balance contains only “Trade Expenses”, the item will be shown on the debit side of Profit & Loss A/c. If the Trial Balance contains “Trade Expenses” and also other items like “Sundry Expenses” or “Office Expenses” or “General Expenses” or “Miscellaneous Expenses”, the item “Trade Expenses” is shown on the debit side of Trading A/c while the other items of expenses are shown on the debit side of Profit & Loss A/c.
- 7) The adjustment for Bad Debts and Provision for Bad and Doubtful Debts should be effected after other adjustments for Debtors are given effect to. Such adjustments can be unrecorded sales, drawings included in Debtors, drawings treated as sales, etc.
- 8) Reserve for Discount on Debtors should be given effect after the adjustments for Bad Debts and Provision for Bad and Doubtful Debts.
- 9) Reserve for Discount on Creditors should be given effect after making all the other adjustments concerning Creditors.
- 10) Hidden / Self-explanatory adjustments are to be given effect even if there is no special instruction in the problem in this respect.
- 11) Closing Stock should be taken at “Cost or Market Price, whichever is less.”
- 12) If a manager or a partner is allowed commission at a certain percentage on Net Profit, such commission should be calculated in the following manner depending upon how the commission is quoted :
 - a) If it is on Net Profit before charging such commission :

$$\text{Commission Amount} = \frac{\text{Rate of Commission} \times \text{Net Profit}}{100}$$

- b) If it is on Net Profit after charging such commission :

$$\text{Commission Amount} = \frac{\text{Rate of Commission} \times \text{Net Profit}}{100 + \text{Rate of Commission}}$$

- 13) When the date of drawings are not given Interest on drawings should be calculated on average basis or for six months

$$\text{Drawings} \times \frac{\text{Rate}}{100} \times \frac{6}{12}$$

- 14) If a partner introduces capital in the middle of the accounting year, then interest on capital should be calculated on proportionate time period only. (This complication is not expected at your Std. XII level).

Treatment of some important Items appearing in Trial Balance only :

i)	Any outstanding expenses	Liability Side of Balance Sheet
ii)	Any Prepaid Expenses	Asset Side of Balance Sheet
iii)	Any outstanding income	Asset Side of Balance Sheet
iv)	Income Received in Advance	Liability Side of Balance Sheet
v)	Depreciation	Debit Side of Profit & Loss A/c

ix)	Deposit from Public	Liability Side of Balance Sheet
x)	Goods distributed as free samples	Debit side of Profit & Loss A/C
xi)	Suspense Account: a) If it is on Debit Side b) If it is on Credit Side	Show the same figure on Asset Side Show the same figure on Liability Side
xii)	Bank for Collection of Bills	Asset Side of Balance Sheet

Steps for solving problem :

- 1) Prepare the necessary accounts, including the working notes.
- 2) Place some mark on Trial Balance items for external as well as internal adjustments.
- 3) Go through Trial Balance items and give only one accounting effect sequentially.
- 4) Go through Adjustments and give two accounting effects.
- 5) Close Ledgers in the working notes, except capital.
- 6) Find Gross Profit, Net Profit and transfer it to individual capital accounts.
- 7) Find the closing balance in capital and transfer it to Balance Sheet.
- 8) Tally the Balance Sheet.

	57,500	45,740		57,500	45,740
			By Balance b/d	57,500	41,740

Working Notes :

- (1) In this problem Current Account is given. So total Amount of fixed capital of Ram (₹1,60,000) and Krishna (₹ 80,000) = ₹ 2,40,000 should be directly shown on the liability side of Balance Sheet. Effect of adjustment related with capital. i.e. 5% interest on capital, 3% commission on net sales, partners should be reflected on current account which is separately prepared. Closing Balances of Current Account of partners will be shown on liability side of Balance sheet.
- (2) Amount of Debtor (3000) which is not recoverable is to be treated as Bad debts (New) and it should be deducted from debtors on Assets side of Balance Sheet.
- (3) 12% Govt. Bonds - are purchased on 1.1.2019, So Interest receivable is only for 3 months (i.e. 1.1.2019 To 31.3.2019) @ 12% p.a. on 15000. Which is treated as income.

$$\frac{15,000}{100} \times \frac{12}{100} \times \frac{3}{12} = ₹ 1,800$$

₹ 1,800 is for 12 months, we have to consider Interest for 3 months only.

$$\frac{1,800}{100} \times \frac{3}{12} = ₹ 450$$

Interest on Govt Bonds @ 12% for 3 months is ₹ 450
