## **FOREWORD**

The National Curriculum Framework (NCF), 2005 recommends that children's life at school must be linked to their life outside the school. This principle marks a departure from the legacy of bookish learning which continues to shape our system and causes a gap between the school, home and community. The syllabi and textbooks developed on the basis of NCF signify an attempt to implement this basic idea. They also attempt to discourage rote learning and the maintenance of sharp boundaries between different subject areas. We hope these measures will take us significantly further in the direction of a child-centred system of education outlined in the National Policy on Education (1986).

The success of this effort depends on the steps that school principals and teachers will take to encourage children to reflect on their own learning and to pursue imaginative activities and questions. We must recognise that, given space, time and freedom, children generate new knowledge by engaging with the information passed on to them by adults. Treating the prescribed textbook as the sole basis of examination is one of the key reasons why other resources and sites of learning are ignored. Inculcating creativity and initiative is possible if we perceive and treat children as participants in learning, not as receivers of a fixed body of knowledge.

These aims imply considerable change in school routines and mode of functioning. Flexibility in the daily time-table is as necessary as rigour in implementing the annual calender so that the required number of teaching days are actually devoted to teaching. The methods used for teaching and evaluation will also determine how effective this textbook proves for making children's life at school a happy experience, rather than a source of stress or boredom. Syllabus designers have tried to address the problem of curricular burden by restructuring and reorienting knowledge at different stages with greater consideration for child psychology and the time available for teaching. The textbook attempts to enhance this endeavour by giving higher priority and space to opportunities for contemplation and wondering, discussion in small groups, and activities requiring hands-on experience.

The National Council of Educational Research and Training (NCERT) appreciates the hard work done by the textbook development committee responsible for this book. We wish to thank the Chairperson of the advisory group in science and mathematics, Professor J.V. Narlikar and the Chief Advisor for this book, Professor B. L. Khandelwal for guiding the work of this committee. Several teachers contributed to the development of this textbook; we are grateful to their principals for making this possible. We are indebted to the institutions and organisations which have generously permitted us to draw upon their resources, material and personnel. As an organisation committed to systemic reform and continuous improvement in the quality of its products, NCERT welcomes comments and suggestions which will enable us to undertake further revision and refinement.

New Delhi 20 December 2005 Director
National Council of Educational
Research and Training

## RATIONALISATION OF CONTENT IN THE TEXTBOOKS

In view of the COVID-19 pandemic, it is imperative to reduce content load on students. The National Education Policy 2020, also emphasises reducing the content load and providing opportunities for experiential learning with creative mindset. In this background, the NCERT has undertaken the exercise to rationalise the textbooks across all classes. Learning Outcomes already developed by the NCERT across classes have been taken into consideration in this exercise.

## Contents of the textbooks have been rationalised in view of the following:

- Overlapping with similar content included in other subject areas in the same class
- Similar content included in the lower or higher class in the same subject
- Difficulty level
- Content, which is easily accessible to students without much interventions from teachers and can be learned by children through self-learning or peer-learning
- Content, which is irrelevant in the present context

This present edition, is a reformatted version after carrying out the changes given above.

## TEXTBOOK DEVELOPMENT COMMITTEE

## Chairperson, Advisory Group for Textbooks in Science and Mathematics

J.V. Narlikar, *Emeritus Professor*, Chairman, Advisory Committee, Inter University Centre for Astronomy and Astrophysics (IUCCA), Ganeshbhind, Pune University, Pune

## CHIEF ADVISOR

B.L. Khandelwal, *Professor (Retd.), Emeritus Scientist*, CSIR; *Emeritus Fellow*, AICTE and formerly *Chairman*, Department of Chemistry, Indian Institute of Technology, New Delhi

#### **Members**

A. S. Brar, Professor, Indian Institute of Technology, Delhi

Anjni Koul, Lecturer, DESM, NCERT, New Delhi

H.O. Gupta, Professor, DESM, NCERT, New Delhi

I.P. Aggarwal, Professor, Regional Institute of Education, Bhopal

Jaishree Sharma, Professor, DESM, NCERT, New Delhi

M. Chandra, Professor, DESM, NCERT, New Delhi

Poonam Sawhney, PGT (Chemistry), Kendriya Vidyalaya, Vikas Puri, New Delhi

R.K. Parashar, Lecturer, DESM, NCERT, New Delhi

S.K. Dogra, *Professor*, Dr. B.R. Ambedkar Centre for Biomedical Research, University of Delhi, Delhi

S.K. Gupta, Reader, School of Studies in Chemistry, Jiwaji University, Gwalior

Sadhna Bhargava, PGT (Chemistry), Sardar Patel Vidyalaya, Lodhi Estate, New Delhi

Shubha Keshwan, *Headmistress*, Demonstration School, Regional Institute of Education, Mysuru

Sukhvir Singh, Reader, DESM, NCERT, New Delhi

Sunita Malhotra, Professor, School of Sciences, IGNOU, Maidan Garhi, New Delhi

V.K. Verma, *Professor* (Retd.), Institute of Technology, Banaras Hindu University, Varanasi

V.P. Gupta, Reader, Regional Institute of Education, Bhopal

## MEMBER-COORDINATOR

Alka Mehrotra, Reader, DESM, NCERT, New Delhi

## **ACKNOWLEDGEMENTS**

The National Council of Educational Research and Training acknowledges the valuable contributions of the individuals and organisations involved in the development of Chemistry textbook for Class XI. It also acknowledges that some useful material from the reprint editions (2005) of Chemistry textbooks has been utilised in the development of the present textbook.

The following academics contributed effectively in editing, reviewing, refining and finalisation of the manuscript of this book: G.T. Bhandage, *Professor*, RIE, Mysuru; N. Ram, *Professor*, IIT, New Delhi; Sanjeev Kumar, *Associate Professor*, School of Science, IGNOU, Maidan Garhi, New Delhi; Shampa Bhattacharya, *Associate Professor*, Hans Raj College, Delhi; Vijay Sarda, *Associate Professor* (Retd.), Zakir Husain College, New Delhi; K.K. Arora, *Associate Professor*, Zakir Husain College, New Delhi; Shashi Saxena, *Associate Professor*, Hans Raj College, Delhi; Anuradha Sen, Apeejay School, Sheikh Sarai, New Delhi; C. Shrinivas, *PGT*, Kendriya Vidyalaya, Pushp Vihar, New Delhi; D.L. Bharti, *PGT*, Ramjas School, Sector IV, R.K. Puram, New Delhi; Ila Sharma, *PGT*, Delhi Public School, Dwarka, Sector-B, New Delhi; Raj Lakshmi Karthikeyan, *Head* (Science), Mother's International School, Sri Aurobindo Marg, New Delhi; Sushma Kiran Setia, *Principal*, Sarvodaya Kanya Vidyalaya, Hari Nagar (CT), New Delhi; Nidhi Chaudray, *PGT*, CRPF Public School, Rohini, Delhi; and Veena Suri, *PGT*, Bluebells School, Kailash Colony, New Delhi. We are thankful to them.

We express our gratitude to R.S. Sindhu, *Professor* (Retd.), DESM, NCERT, New Delhi, for editing and refining the content of the textbook right from the initial stage.

We are also grateful to Ruchi Verma, *Associate Professor*, DESM, NCERT, New Delhi; Pramila Tanwar, *Associate Professor*, DESM, NCERT, New Delhi; R.B. Pareek, *Associate Professor*, RIE, Ajmer; and A.K. Arya, *Associate Professor*, RIE, Ajmer, for refining the content of the textbook.

Special thanks are due to M. Chandra, *Professor and Head (Retd.)*, DESM, NCERT for her support.

The Council also gratefully acknowledges the contributions of Surendra Kumar, Narender Verma and Ramesh Kumar, *DTP Operators*; Subhash Saluja, Ramendra Kumar Sharma and Abhimanyu Mohanty, *Proofreaders*; Bhavna Saxena, *Copy Editor*; and Deepak Kapoor, *In-charge*, Computer Station, in shaping this book. The contributions of the Publication Department, NCERT, New Delhi, in bringing out this book are also duly acknowledged.

## **CONTENTS**

	Fore	eword	iii
	Rati	ionalisation of Content in the Textbooks	v
Unit 1	Some Basic Concepts of Chemistry		
	1.1	Importance of Chemistry	4
	1.2	Nature of Matter	4
	1.3	Properties of Matter and their Measurement	6
	1.4	Uncertainty in Measurement	10
	1.5	Laws of Chemical Combinations	14
	1.6	Dalton's Atomic Theory	16
	1.7	Atomic and Molecular Masses	16
	1.8	Mole Concept and Molar Masses	18
	1.9	Percentage Composition	18
	1.10	Stoichiometry and Stoichiometric Calculations	20
Unit 2	Stru	acture of Atom	29
	2.1	Discovery of Sub-atomic Particles	30
	2.2	Atomic Models	32
	2.3	Developments Leading to the Bohr's Model of Atom	37
	2.4	Bohr's Model for Hydrogen Atom	46
	2.5	Towards Quantum Mechanical Model of the Atom	49
	2.6	Quantum Mechanical Model of Atom	53
Unit 3	Clas	ssification of Elements and Periodicity in Properties	74
	3.1	Why do we Need to Classify Elements?	74
	3.2	Genesis of Periodic Classification	75
	3.3	Modern Periodic Law and the Present Form of the Periodic Table	78
	3.4	Nomenclature of Elements with Atomic Numbers > 100	78
	3.5	Electronic Configurations of Elements and the Periodic Table	81

	3.6	Electronic Configurations and Types of Elements: s-, p-, d-, f- Blocks	82		
	3.7	Periodic Trends in Properties of Elements	85		
Unit 4	Chemical Bonding and Molecular Structure				
	4.1	Kössel-Lewis Approach to Chemical Bonding	101		
	4.2	Ionic or Electrovalent Bond	106		
	4.3	Bond Parameters	107		
	4.4	The Valence Shell Electron Pair Repulsion (VSEPR) Theory	112		
	4.5	Valence Bond Theory	117		
	4.6	Hybridisation	120		
	4.7	Molecular Orbital Theory	125		
	4.8	Bonding in Some Homonuclear Diatomic Molecules	129		
	4.9	Hydrogen Bonding	131		
Unit 5	Thermodynamics				
	5.1	Thermodynamic Terms	137		
	5.2	Applications	140		
	5.3	Measurement of $\Delta U$ and $\Delta H$ : Calorimetry	145		
	5.4	Enthalpy Change, $\Delta_r H$ of a Reaction – Reaction Enthalpy	146		
	5.5	Enthalpies for Different Types of Reactions	152		
	5.6	Spontaneity	157		
	5.7	Gibbs Energy Change and Equilibrium	162		
Unit 6	Equ	Equilibrium			
	6.1	Equilibrium in Physical Processes	169		
	6.2	Equilibrium in Chemical Processes – Dynamic Equilibrium	172		
	6.3	Law of Chemical Equilibrium and Equilibrium Constant	174		
	6.4	Homogeneous Equilibria	177		
	6.5	Heterogeneous Equilibria	179		
	6.6	Applications of Equilibrium Constants	181		
	6.7	Relationship between Equilibrium Constant $K$ , Reaction Quotient $Q$ and Gibbs Energy $G$	184		

Ansv	ver to Some Selected Problems	229
Appendices		
6.13	Solubility Equilibria of Sparingly Soluble Salts	204
6.12	Buffer Solutions	202
6.11	Ionization of Acids and Bases	192
6.10	Acids, Bases and Salts	189
6.9	Ionic Equilibrium in Solution	188
6.8	Factors Affecting Equilibria	184
